Ghaziabad, Uttar Pradesh, India

PROFESSIONAL SUMMARY

Enthusiastic Computer Science student specializing in blockchain development, full-stack web development, and cybersecurity. Certified in blockchain technology with hands-on experience in building decentralized applications (dApps) using Solidity, Web3.js, and MERN stack. Passionate about creating secure, scalable, and decentralized systems that drive the future of Web3. Committed to implementing best practices in security and developing innovative solutions that eliminate intermediaries and enhance transparency.

EDUCATION

ABES Engineering College <i>Bachelor of Technology in Computer Science and Engineering</i>	Ghaziabad, Uttar Pradesh 2024 – 2028
S.V.S. Vidya Mandir <i>Senior Secondary and High School Education</i>	India Completed

TECHNICAL SKILLS

Programming Languages: Solidity, C, C++, Python, JavaScript, HTML, CSS, SQL
Blockchain Tools: Hardhat, Remix, MetaMask, Alchemy, Web3.js
Web Development: React.js, Node.js, Express.js, MERN Stack
Database Technologies: MySQL, MongoDB, Query Optimization
Version Control: Git, GitHub
Core Competencies: Smart Contract Development, dApp Architecture, Cybersecurity Fundamentals, Network Defense, Responsive UI/UX Design, Database Security, Vulnerability Assessment

CERTIFICATIONS

Blockchain Certification <i>Mastered Solidity and Smart Contract Deployment</i>	Cyfrin Updraft
Deloitte Cyber Job Simulation <i>Certificate of Completion - Cybersecurity Fundamentals</i>	Deloitte
Blockchain Basics Certification <i>Foundational Knowledge in Blockchain Technology</i>	Coursera/Platform
Hackdata '25 Participation Certificate <i>Certificate of Participation</i>	Hackathon Event

KEY ACHIEVEMENTS

- Awarded Silver Medal at IIT Delhi Handloom Hackathon for innovative technical solution and outstanding performance
- Active hackathon participant with 10+ hackathons attended, demonstrating consistent problem-solving skills and collaborative development
- Completed Deloitte Cyber Job Simulation, gaining practical experience in cybersecurity operations and threat analysis
- Earned Blockchain Certification from Cyfrin Updraft, mastering Solidity and smart contract deployment on Ethereum networks
- Designed and tested secure decentralized applications (dApps) integrating Web3.js and blockchain APIs for real-world use cases
- Built scalable full-stack web projects using React, Node.js, Express.js with integrated MySQL and MongoDB database solutions
- Applied cybersecurity best practices including encryption, network security, and vulnerability assessment to strengthen system defenses

AREAS OF EXPERTISE

- Blockchain Development and Smart Contract Programming
- Web3 Integration and Decentralized Application (dApp) Architecture
- Cybersecurity Fundamentals and Network Defense Strategies
- Full-Stack Web Development with MERN Stack
- Responsive Frontend Design and User Experience Optimization
- Database Management, Query Optimization, and Data Security

PROJECTS

Weaver Connect - Digital Marketplace Platform React.js, Node.js, WhatsApp API, Telegram Bot, Affiliate Marketing
IIT Delhi Handloom Hackathon - Silver Medal Winner 2025

- Developed an innovative platform connecting rural weavers to e-commerce by enabling product listings through simple WhatsApp/Telegram messages
- Implemented automated system to receive product photos and details via messaging apps and auto-publish listings on website, eliminating digital barriers
- Integrated affiliate marketing system to promote handmade products and generate real sales for rural artisans without technical knowledge
- Empowered traditional weavers with accessible digital commerce solution, removing the need to understand complex website uploads or technology

MonadPay - On-Chain Payment System Solidity, Web3.js, WalletConnect, Monad Testnet, React.js
Blockchain Payment Solution 2025

- Built decentralized payment system on Monad testnet enabling seamless cryptocurrency transactions with QR code and deep link generation
- Implemented deep link functionality for payment requests with customizable recipient address, amount, and token parameters
- Integrated WalletConnect protocol for secure wallet connection and transaction signing on Monad blockchain network
- Developed user-friendly interface for generating shareable payment links and QR codes, simplifying on-chain payment experience
